BEECHY SK S0L 0C0

Attention Waterworks Owner/Operator:

RE: Precautionary Drinking Water Advisory for the Village of Beechy - Rescinded

The Water Security Agency (WSA) is satisfied with the negative bacteriological sampling and adequate disinfection residuals and turbidity values from samples that have been collected from the water distribution system following the recent waterworks system depressurization. Therefore, effective immediately the WSA is rescinding the "**Precautionary Drinking Water Advisory**" for the residents and users of the Village of Beechy water supply located on 2nd Avenue North between Main Street and 1st Street East.

For further information, please do not hesitate to contact the undersigned at (306) 741-7718 or Scott.Klippenstein@wsask.ca.

Sincerely,

A handwritten signature in black ink, appearing to read "S. Klippenstein", is written over a horizontal line.
